PROFILE

I am an Amphibian & Jack of many-many trades. I am lifetime learner. I started programming since I was 15. I've worked with many technologies and in mulitple fileds ranging from Web Development, App Development, Information Security, Computer Networking in Technology. Now I'm planning to get hands dirty in DevOps, Cloud Computing, BlockChain, AI before graduation. I've also tried myself in non-technical roles like- HR Management.
Since, I'm a Jack of Many Trades, It is easy for me to get accomodated in any proejct quickly & master things and deliver on-time.

EDUCATION

Bachelor of Technology
VIT, Vellore

HSC - High School
Cambridge International School
2017-2018 | 92%

SSC - Secondary School
M.G. Public School
2015-2016 | 10/10

EXPERIENCE | LIVE PROJECTS

WebSite Developer & Digital Marketer | Freelance
July, 2022 - Aug, 2022 | Sports24x7 by 24x7I

Built Complete Website with various customization- sports247.info. Got Traffic from 48+ Countries just in 2 weeks. Got the AdSense & Google News approved by taking various strategies. Managed Various social media handles and got 20K+ Impressions over the web in just weeks and much more.

Software Developer | Freelance
May, 2022 - July, 2022 | Alloblue

Implemented app.alloblue.com core Business Logic. Was one to build the first and last POC. Build Robust VoIP Software. Handled mainly Database and Backend. Worked on Frontend too.

Technical Manager | Volunteer
Mar, 2022 - NOW | Crucial News Media Network

I worked for free, because I loved what they wanted to serve to the world. Built Crucial News Media Network websites (crucial.news, crucialnews.in and more). From Zero managed the SEO and got upto #6 on Google Search Engine. Also helped in recruiting Editors round the Globe. Almost every technical part was built and managed by me. Guided many newly joined interns on various things.

Software Developer | Internship
Oct, 2021 - Nov,2021 | Seabrook Inns, New Hampshire, USA

Built some basic websites like- seabrookinns.com. Worked on their Internal Applications to manage Bookings and much more.

Co Founder
Sep, 2021 - Feb,2022 | Cypher Retail Pvt. Ltd.

Some relatives wanted to do startup. They wanted to start with Toys Retail Platform. I initally joined as Intern and build Shopify Stores and handled marketing and all business operations. It could not turn out to be successfull as whole but I learnt a lot of things and became better in many ways. Learning was all it took from it. I'll use it in the corporate, I'll work for in future.

List goes till 2015

Project is like food to me. I love projects. Coding since 2015. No theory, just practical real world projects (Products & Services). Try me out. I won't ever be a liability.
